REQUESTS FOR SPECIAL TRANSPORTATION
CONSIDERATION

Parents and guardians often request that their child be discharged at a location other than the one which the bus route designates, or that their child be rerouted because of a temporary change in the child's residence. Such requests may be so dissimilar that only a dynamic policy can address the variables involved. Therefore it is the policy of this Board that the Superintendent or designee be empowered to approve such requests provided:

1. The requests are made in writing,
2. The route is not extended in any meaningful way, and
3. There is room on the bus and time in the schedule to accommodate the request.
